

REACH declaration (EG) nr. 1907/2006

Dear Customer,

We declare the products manufactured by Sekisui Eslon B.V. comply with the related requirements of European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH):

- 1) Under the structure of the REACH Regulation, Sekisui Eslon B.V. is a downstream user. We do not manufacture nor import into the EU "substances" or "preparations" and our articles do not involve the intentional release of substances. This means that the registration obligations in the REACH regulation are not directly applicable to Sekisui Eslon B.V. as manufacturer of products.
- 2) The products Sekisui Eslon B.V. supplies to you are considered articles and as such they do not need to be registered. Concerning the substances used for the production our suppliers confirmed the registration in the REACH database as well as our usage being registered as an identified use.
- 3) Substances of Very High Concern (SVHC) candidates for annex XIV
Based on our current supplier information our products do not contain substances listed on the SVHC list in concentrations equal to or greater than 0,1%.
- 4) Authorization list annex XIV
Based on our current supplier information our products do not contain substances subject to authorization under REACH.
- 5) Restriction list annex XVII
Based on our current supplier information our products do not contain substances listed on the restriction list under REACH.

Kind regards,

Sekisui Eslon BV
